 PCP Registration #29318 P.C.P. ACT
[PCP Registration #29942 P.C.P. ACT](#)
 PMRA approved for food plants & restaurants

Better Than Crawling Insect Killer is an effective aerosol contact & residual insecticide spray that may be used indoors & outdoors. With an optimized active blend & strength, this Crawling Insect Killer will provide both instant and long term insect control. This water based, easy-to-use spray may be used as contact or crack & crevice spray for immediate pest infestation, or as a barrier spray for preventative long-term control. #24502 12/350 g
 PCP Registration # 23088.05 P.C.P. ACT

Better Than Hornet & Wasp Killer is an effective aerosol contact & residual insecticide spray that kills & controls wasps, bees, hornets and yellow jackets. The special spray nozzle, +15 foot jet spray, and synergized blend of actives ensures pin point accuracy and superior results when spraying nests. BT Hornet & Wasp Killer's 35,000 + Volt dielectric strength provides greater safety when spraying around electrical switch boxes and wiring. #24503 12/350 g
 PCP Registration #28044 P.C.P. ACT

Better Than Total Release Fumigator is an effective knockdown insecticide. It can be used in a continuous spray mode for heavy infestations and large areas or in manual spray mode for smaller spaces. It biologically breaks down in a few hours allowing fast re-entry times to fumigated areas. Easy & convenient to use 360° valve to spray upside down in Manual Mode. One unit treats up to (300 cubic meters or 10,590 cubic feet). #24509 12/400 g
 PCP Registration #30424 P.C.P. ACT Class Domestic

Better Than Bed Bug Killer 100g & 400g
BED BUGS: Spray mattress, particularly around seams and tufts. Take beds apart, spray all joints. Spray suitcases and shoes after trips. Repeat as required.
FLEAS: Spray animal sleeping quarters and floors around area, but not furniture or carpets that people regularly contact. Remove old bedding and replace with clean bedding after treatment.
 DO NOT SPRAY PETS.
 #24506 12/400 g #24507 12/100 g
 PCP Registration # 29946 P.C.P. ACT

West Nile Virus (WNV) is considered to be the most widely distributed vector-borne disease in North America, and has now been detected in B.C.
